For Burralo.-The well known Steamer Sulting, Capt Accepter, is to leave for Buffalo this evening, offering a pleasant trip around the lakes. For passage, apply to HARD & GRIFFIH, Agents corner of Main & Huron Sts. See advertisement

#### Our Hailroad Connections East.

The following preamble and resolutions were adopted at the last meeting of the Common Conncil. They are right as far as they go, but "fair words butter no paranipe." We should have been better content if the Council had "suited the action to the word." by issuing the City Bonds for \$75,000 to the Milwaukee and Watertown R. R. Company. This would have been a practical evidence of their "lively interest" in the completion of our great thoroughfares:

tion of our great thoroughferes:

Whereas the interests of the City of Milwankes closely identified with the direct line of railroad coronnactation, which is now in progress of construction, with the prospect of its speedy completion, through Michigan by way of the Port Huron and Grand Haven Railroad, and through Canada by way of the Great Trunk Railway to the Arlantic: And whereas if the energetic managers of those important public works could be made foily sensible of the value of the system of railroads projected and in progress from this City to the Mississippi, and thence to the Great West beyond, as tributaries and feeders to the business of their respective lines, they should feel a lively interest in the early completion of our several roads, inacuruch that it is reasonable to suppose that rainable aid could be otherized for the benefit of our most important lines, through the assistant rainable aid could be otherized for the benefit of our most important lines, through the assistant rainable aid could be otherized for the benefit of our most important lines, through the assistant rainable aid could be otherized for the benefit of our most important lines, through the assistant rainable aid could be otherized for the benefit of our most important lines, through the assistant rainable aid could be otherized for the benefit of our most important lines, through the assistant rainable aid could be otherized for the benefit of our most important lines, through the assistant rainable aid could be otherized. fit of our most important lines, through the assi tance which the able financiers connected wit the said Grand Trunk Railway could extend t

Therefore Resolved, by the Common Council of the City of Milwaukee, that the Honorable Byron Kilbourn, Mayor of this City, be requested to open a correspondence with the leading members of the said Grand Trunk Railway, and by such other means of communication and negatiation as may seem to him fit and expedient, endeavor to enlist said parties in furnishing aid to the most prominent roads radiating from this City, and terminating on the Mississippi Fiver at or near La Crosse, Prairie do Cihen and Du Buque; and that he be requested to co-operate with the said Companies and the accredited Agents thereof, to promote any negotiations have with the said Companies and the accredited. Agents thereof, to promote any negotiations having said objects in view, and for the purpose of bringing into notice the tree merits and important bearings of these enterprizes on the connected of the immense region lying between Lake Michigan and the Mississippi River, including the whole upper section of that river, and the country beyond to an indefinite extent, and the inventure of the connection thus to be established.

country beyond to an indefinite extent, and the importance of the connection thus to be established through this City with the direct lines of communication aforesaid to the sea, board.

Resolved, That the citizens of Milwaukee view with the most lively interest and satisfaction, the rapid strides making towards the completion of those great lines of road, which when completed will open to us a direct communication across Lake Michigan to Grand Haven, and thence in the most direct route to the Bastern and Foreign Markets, and that such route will naturally command the favor and business of the citizens and people of not only our own locality, but of the vast country, which by our well devised system of railreads will be made permanently tributary to this channel of trade and communication.

About

We are now prepared to prove that Goy-Baratow stated at the U. S. Hotel in Milwaukee, on the night previous to his departure for Wash-ieston, that Mr. Reymert had bought out Barron, that Barron was to resign the P. O. in Reymert's faver, and that Reymert, in order to hold the of-fice of P. M., was to resign the office of State Senator.—Waukesha Co. Demovrat.

We are "prepared" to believe all but the last item. That we counct swallow, even on the authority of the Wankesha Democrat. The idea of Mr. Revmert's resigning his senatorship, in order to remove the Constitutional objection to his being made P. M., is rather rich. His appointment as Postmaster would not be one whit more open or flagiant a violation of that instrument, that the appointment of his brother Senators and fellow democrats. HUNTER, MCLANE, and VITTOM. to the offices which they respectively hold. Indeed it would not be so bad-for they all helped to "create" the offices to which our Constitution defeing Governor appointed them.

MINNESOTA DAILY PIONEER.—The Pioneer office, at St. Paul, Minnesota, sends us a handsome six column daily, well conducted, and seemingly well patronized. It is published at \$6.00 per annum. Think of our five year old neighbor, away up on the Upper Mississippi, having and supporting a daily newspaper like that.

Still another is announced, to be called the Times, and to be whig in politics.

LAWYERS IN WISCOSSIN .-- In a number of Liv ingdon's Law Register, which we received last night, we find there are seven hundred and ninetren largers in Wisconsin. The county of Milwrukee alone, has one hundred and thirty-six of square miles, and if the number of lawvers given in the Register be correct, every section and a half of land in the county gean have a separate legal gentleman to defend its title.

#### The Jury in the Ward Case,

The Louisville Denocrat of Saturday last

"The moment the jury was empanneled, the honest portion of the citizens of Hardin county ionest purtion of the citizens of Hardin county said, nehesitatingly, that twelve just such men could not anywhere else be found; and that, no matter what the testimony might be, a couriction was not to be looked for i A glance at their faces by a stranger would at once have led him to conclude that it was "sentence-day" in court, and that the convicts of a protracted term had just been brought out to receive sentence had just been brought out to receive seatence.—
There was but one man on the jury whose face
would not have condemned him in any civilzed
community—we mean Crutcher. He looked like
an Lonest man. We hope, though with many
doubts, that he was; but that, finding himself
in a den of—(we were going to say thieves, but
respect for the inmates of the penitentiary forhids such a comparison)—finding himself with
eleven such men as he was associated with, he
resumitted himself to be overfuled.

eleven such men as he was associated with, he permitted himself to be overruled.

"It was sickening to hear the comments of the neighbors and acquaintances of the jurors upon their history and character. One had been indicted for burning his neighbor's barn, and never acquitted. Another was well known to have committed base regime Another had visited the prisoners in jail repeatedly, and had said again and again that the prisoners were innecent, and yet had sworn as a juror that he had formed no opinion. Another had brought a how nocent, and yet had sworn as a juror that he had remed no opinion. Another had brought about with him from the country to take back his horse, telling his family that he expected to be caught upon the jury to try the Ward case; and yet when sworn as to having formed any opinion, with the most affecting air of innucence, taked what case it was, and had to study some lime before he could remember whether he had ever heard of the case before. These comments and opinions were not promulated after the viridic; but from the mement the jury was empanded, it was the common talk of the whole community.

munity."
We intend at a future day and calmer hour, to resume this subject, and make a full expose of the

But the great trouble here is the absence of running streams.

On all at the Borde of this city. A very animated discontinuous control of the Borde of this city. the diggings there are what are called the surface diggings, where the gold is found from the top down about 6 or 8 inches. Some of these dig-Hadler and Wunderly urging their acceptance, gings have been very rich; large nuggets of sever and Mayor Kilbours and Alderman JENENES opreign at pounds weight have been found, but a few posing it. Finally the following resolution, preand inches below the surface. As might be expect. ed, these diggings were the first to be worked out, but even now, there are good spots occasionally

found.

About the time when I first came in August, on the diggings, which was at the Bendigo, the agitation concerning the Licenso question, was then at its height. No doubt many conflicting reports and misrepresentions relative to it, have been received in England and the United States. When the discovery of gold was made in this country, the license fee for gold mining was fixed by the Colonial Legislature at 30s sterling per month. This was willingly paid and no opposition the same are the Country of the country and in fact affords no guarance that said Company and in fact affords no guarance that said Company will, on the demand of the City, give such other and further security as the Common Counciliant the said that the Colonial Counciliant that the said Company will, on the demand of the City, give such other and further security as the Common Counciliant require in pursuance of law. nonth. This was willingly paid and no opposition show against it, until, about 8 or 10 months. since, success not being so general, it was universally felt to be too heavy. Meetings were held, and petitions sent to the Governor and Legislature praying, for the reduction of the fee. For 3 or 4 months, all that was done by the authorities, was to premise that it should be legislated upon. As these promises were repeated so often and nothing done and the old 30s. license still being inforced the diggers saw that they must use stron-

ger messures. Anti-Gold License committees were formed on all the diggings, and toward the latter part of August a monster meeting (which I attended) was held at Bendigo. Delegates from all the other mines were sent. It was estimated that about 15,000 miners were present. Speeches were made, and a series of resolutions were passed and amongst them was one, which expressed their strong determination not to pay the old license fee any longer, and all those who were anti-license men were to be known by wearing a red ribbon in their hats. On the next day the red cockado was donned by almost every one .--The government now saw that the 30s could be enforced no longer; the Legislative Council the number. The county contains about 216 then being in session a bill was introduced and passed fixing the fee at £2 for three months or until the first of December. This was intended merely as a temporary measure, so as to allow time for mature legislation on the question.-This amount was cheerfully paid by all. At the end of November last another Bill, to be a permanent act was passed, fixing the license at £1. for one month, £2 for three, £4 for six, and £8

> The elective franchise is extended to those who take out a yearly license, being of course British subjects. These terms are liberal, and I believe will give general satisfaction to the miners, who are all willing to pay something for the privilege of mining. The expense to the government for the large police force dec, which it is absolutely necessary to keep on the diggings, is very great and unless people wish the country to be thrown into the disorganized state in which California was in for two or three years after the discovery of gold there, they must expect to pay something so that law and order may be kept up.— In the colony of New South Wales, the license fee has been reduced to 10s, per month. The extent of claim allowed to each miner on the gold fields is 12 feet square. Commissioners are stationed all over the diggings, to give out licenses and settle disputes about claims, which often occur amongst the miners.

The distance of the four principal gold fields from Melbourne is as follows: The Ovens, 180 miles: Bendigo 90; Mt. Alexander, 70; and Balara 70. The number of miners on all the diggings of Victoria is estimated at 90 or 100,000. The whole population of the Colony is about 225,000. Several petitions has been lately presented to the Legislature of this colony praying for the he Legislature of this colony praying for the mactinent of a law similer to the Maine Law.—

The Duke then got into a violent passion, and after using the most abusive language, struk the weeks since, signed by two thousand of the law siddler a dreadful blow with his whip across the face. The soldier then, in a fit of exasperation, drew out his about word, and plunged it into the lower part of the Duky's stomach. In the tumult, he succeeded in making his secape." enactment of a law similar to the Maine Law .-A petition to that effect was presented a few dies of Melbourns. Intemperance is a vice which has here risen to a fearful height.

To those who go to New York to take ship fo this country, I would recommend them to the "Pioneer Line," Cameron & Ogden Agents, Wall

There are some other matters which I would touch upon, but as I have now written a longer

The Common Council held a special meeting on Tuesday night, to decide upon the application of the People of this city. A very animated discussion ensued upon the question of accepting the pared by the Mayor, was carried by the casting vote of that functionary:

Resolved. That the bond and second morigage cil may require in pursuance of law.

The vote upon the adoption of this resolution stood thus: Year, Mesers. Coughlin, Geisborg, Hayden, Jenkins, Mitchell, Schultz. 6. Nays, Mesers. Hadley, Houghton, Kane, Mal-

ory, Reed, Wunderly. 6. The Mayor gave the casting vote in the affirnative and declared the resolution carried. So the securities tendered by the Milwaukee & Waertown R. R. Company for an issue of \$75,000 of City Bonds were rejected. The whole matter was then re-committed to the committee.

We copy from the Wisconsin of Monday an article on this subject, published in anticipation of the Council's action, and strongly urging the

issue of the bonds : THE MILWAUKEE AND WATERTOWN RAILBOAD THE MILWALKEE AND WATERTOWN KAILROAD LOAR.—The Council hold a special session this evening, to consider the application for the issue of the City bonds—sometime since authorized by a vote of the People of Milwaukee. The Mayor in his Inaugural message, especially urged the importance of union and energy towards all of tailway enterprises, which we hope to see illustrated in this case. The company should give railway enterprises, which we hope to see illustrated in this case. The company should give just such security as the other roads which have received bonds under a vote of the people, have given, and it would be manifestly unjust to exact more—unless there is some special cause of danger to the city; but of this there is hardly a prebability when we state that the company ask for only \$2,500 per mile or \$75,000 in all, and then city the bond of such more as Elicia Elfrad

ger to the city; but of this there is hardly a prebability when we state that the company sek for only \$2,500 per mile or \$25,000 in all, and they give the bond of such men as Elisha Eldred Alexander Mitchell, Joshua Hathaway, Hans Crocker, John H. Tweedy, John-S. Rockwell, Eliphalet Cramer, E. F. Bishop, H. Williams, &c. We doubt whether such a bond is often offered to any city in the Union. By delay, the Council can retard the completion of a road of the first importance to the autumn business of Milwankee. If these bonds are issued in pursuance of the vote of the people of Milwankee, the road will be opened to Watertown in September next. We concur in the opinion expressed by the Wisconsin as to the sufficiency of the band dc, tendeded by the company, and cannet that express our surprise that the Council should hesitate to accept it. The Milwankee & Watertown Rail Road is destined to be one of the most important thoroughfares leading to our city, and will pay from the start. The bond and second mortgage offered by the Company is ample security of its self for the small amount of City aid they recourse and the City might better give the \$75,000

DEATH OF THE DUKE OF PARMA.-Inte for DEATH OF THE DEED OF PARMA.—Late foreign papers give the following account of the assassination of the Duke of Parma:

"It was in a sort of low wine shop, frequented by the lowest people, that the event occurred.—The Duke entered the common room, and was recognized by a soldier who was reading, and who immediately rose and saluted him, and then atting drawn again; continued the regress of the who immediately rose and saluted him, and then sitting down again continued the perusal of the journal he was engaged with. Why do you go on reading before your prince, and seated? The soldier replied in a low tone: In seeing your Royal Highness enter such a place, I supposed you desired to remain incognito; and A feared to show you much respect, as that would only attract notice.

#### Our Harbor-The Straight Cut.

At the special meeting of the Common Council, on Tuesday evening the subjoined communication was received from the Mayor, accompafor five dollars per week. In Melbourne and nied by copies of a correspondence between himself and Lt. Col. GRAHAM, the officer in charge of the Public Improvements at this and other parts on Lake Michigan. We rejoice to learn that the adoption of the changes and modifications suggested by Lt. Col. Graham renews all obstacles to a cordial co-operation of the City and Government authorities, in the prosecution of this al.ber last, and took 140,000 ounces of gold on important work. We hope that it will now be freight. The quantity of gold shipped from this pushed forward with all possible vigor and descolony since January last is about 105 tons weight | patch :

#### Message from the Mayor.

Hargraves, the discoverer of gold in Australia, Tentlemen of the Common Council;

Gentlemen of the Common Councit:

I have the Honor of submitting herewith for your consideration a correspondence between Col. J. D. Graham and myself, relating to the Harbor, consisting of a communication from him, submitting certain propositions, having for their object a plan whereby the appropriations of the Government and the funds of the city may be expended in the construction of the Harbor, without any delay or disagreement, and a route

be expended in the construction of the Harbor, without any delay or disagreement, and a reply to it from myself on behalf of the city, concenting (so far as with propriety I could) in the suggestions made by him, and promising to lay the subject before this board as early as practicable for their determination.

The plan suggested by the Col. involves the necessity of some slight changes from the plan adopted by this Board, but not such as will materially affect the cost of the work. It also involves a slight change in the position of the piers, giving them a direction between two and three degrees more northerly bearing from the shore, which is quite immaterial and may with propriety be adopted by this Board.

ery be adopted by this Board.

On full consideration of the subject, I am prepared to reccommend the adoption, substantially, of all the suggestions made by Col. CRIMAN, and for that purpose submit the resolution hereto

and for that purpose submit the resolution have appended.

I also recommend the approval of the contract with Abel Hawley prepared by the Harbor Committee in compliance with the Resolution of this Board, which is carefully drawn for the protection of the interests of the city; and the work being executed under the direction and supervision of the Government Agents, will harmonize with the Government work and secure the rapid

bor.

The suggestions of Col. Grandan are very opportune and well timed for the interests of Milwaukes; es neither the Government nor the City wankes. warkes; as neutrer the Government nor the only appropriations taken singly, would be sufficient to make the Harbor as complete as it ought to be, but both applied together in the manner he proposes will fully accomplish that object.

It is but reasonable to suppose that the department under which he nets, will readily assent to his views.—Thus far Oot. Graham has shown a decise to consult the interest and wishes of our

esire to consult the interests and wishes of our lity, and its people, and I tust that they in turn ill be disposed to reciprocate his kindly feelings. Milwaukee, May 8, 1854.

## Respectfully submitted, BYRON KILBOURN.

superinterdance to extend to the manner of doing the work, but not to the firms of its execution, that being reserved to the City Authorities.

Resolved, That the City will convey to the Government the site of the Straight Out, subject to the rights of the City to bave the City Appropriations expended without any dolay under the bigner right on of the officer aforesaid, simultaneously with the expenditure of the Government Appropriations, and with such reservations the May or is hereby authorized to make such release as may be by the Secretary of War required, or the proper Engineur department.

Resolved, that the contract drawn up by the Harbor Committee with Abel Hawley, in pursuance of the resolution of this Board is satisfactory in its terms and is hereby approved; and the Mayor is hereby authorized to make it satisfactory in its terms and is hereby approved; and the Mayor is hereby authorized to the City, to be countersigned by the City Cierk, andered by the Compttoller, and filed in the office of said Clerk.

AN ACT supplementary to "an act to provide for the note speedly collection and payment of fines, forfeitures, and penelties remaining in the contract drawn to control the same on behalf of the City, to be countersigned by the City Cierk, andered by the Compttoller, and filed in the office of said Clerk.

nd filed in the office of said Clerk.

The following letter from Col. GRAHAM to the Mayor details the modifications which that officer proposed and to which the Common Council have given their assent :

#### Office of Public Works of Lake Mich igan. Milwaunee, May 6, 1854.

Milwaukez, May 6, 1854.
Hon, Byron Kilboren, Mayor of Dillwaukee.
Sir.—Under the instructions of the Chief of Topographical Engineers, I have laid out the work for the Harbor improvement at the Straight Out in this city, in accordance with the plan recommended by the Board of U.S. Engineers, and approved by the Hop. the Secretary of War. Proposals have been received for furnishing the necessary materials for commencing said work immediately.

immediately.

As a step preliminary to these operations, it will be necessary that a proper conveyance should be made by the corporation of Milwankee to the United States of the site or ground necessary for the said construction in necordance with the plan of the Board of Engineers, to which I beg leave to refer you at the office of the U. S. sgent in this city, Mr. H. W. Gunnicop.

self for the small amount of City aid they redoire, and the City might batter give the \$75,000
outright than by withholding its bonds, on insufdicient grounds, delay, even for our month, the
completion of the enterprise.

My instructions from Washington already give
me authority to act in accordance with the 1st and
2d items of these suggestions. If the 3d and
4th are assented to by the city authorities it will
be necessary, on my part, to obtain the approval
of the War Department before I proceed to act

under them.

I have thought the suggestions here respect-I have thought the suggestions here respectfully offered for the consideration of yourself and the city authorities, important to the interests of the work in hand, from having understood that a contract was about being entered into for the construction of the work by the city authorities out of the appropriation raised by the city. Should such a step be adopted in the commencement, I apprehend it would have the effect of causing the U.S. government to withdraw altogether from the work and to leave it without interference, to be accomplished entirely by the city. We also the work and to leave it without interference, to be accomplished entirely by the city. My object in making these suggestions is, therefore, to harmonize the operations in such manner as would ensure to the city the benefit of both the government and city appropriations, and in such manner as would probably receive the approval of the War Department.

War Department.

I have the honor to be Very respectfully, your ob't serv't,
J.D. GRAHAM, It. Ool.,
Superintending Engineer of the Lake Michigan
Harbor Works.

#### THE HARBOR.

Messrs. Editors: The questions which I asked some days since are not answered, and cannot be answered to the satisfaction of the people. One of them, relative o the Sheboygan work, is answered sufficiently, as I perceive by an article in your columns from the Secretary, published at that place, removing all blame from Mr. Hawley.

Since I propounded my queries, I am gratified to learn that better counsels have prevailed, and that there is strong probability now of the work proceeding in such a manner as to obtain considerable aid from Government. As all that we want is a good barbor, safe, deep, and capacious as speedily and with as little cost to the city as possible, I have no more questions to ask at present, and will not traspass further upon your space. ALIQUIS.

Hongon Dongs Co.-The Editor of the Portago City Badger State, who has recently made a trip into Dodge County, writes as follows concerning Horicon and vicinity:

Horicon has taken a new start recently, and i horicon has taken a new start recently, and is bound to improve faster for the next two years than any place we know of. It combines more advantages for an inland town than any other in the State. The water power is created by a dam; across Rock River, and has for a reservoir, a lake sixteen miles long, by 3 to 6 miles wide.—The town site is beautifully situated an both sides of the right. the river. A flouring mill, an extensive saw mill, a trip hamner and forge for making bar iron, turning lathes, bedstead manufactories, with many other mechanical branches are already in successother mechanical branches are already in successful operation. The extensive deposite of iron oral known as Iron ridge, commences within three miles of the villiage. Here lies a field of wealth, richer than any "diggings" of California. Two furnaces are now turning out six tons per day of pig iron, and a company with a capital of half a million dollars is making preparations for rolling milts to manufacture railroad iron.

These are some of the local advantages of Horicon. In addition to these, it is the point of connection of the La Crosse and Milwaukee and Milwaukee and Horion railroads, the main trunk of which will undoubtedly be opened from Milwaukee to that place, before the autumn frosts. Its position must of necessity make it the market point for the large and immensaly productive region of Dodgo, Marquette, and a portion of Food du Lac counties.

#### THER. R. V. U. R. R.

One of our neighbors has just returned from One of our neighbors has just returned from a tour through the northern portions of the State, and informs us that among other interesting incidents and accidents of his journey, he had a rids on the R. R. V. U. R. R. from Pond du Lac to Waupun, a distance of 18 miles. His account of the adventure is rather rich, and strongly remiteds us of the boy who worked his passage on the Eric canal by leading the horse on the toepath. He eave that after engaging passage on the cars at Fond du Lac, he was informed the cars did not travel very fast on that road, and that he started in company with another gentleman, on foot, some thirty minutes ahead of the train, for a little pedal exercise, expecting to take the cars when they came along. The passanthat are when they came along. The passengers of course, made no haste; and after resting occasionally on the way, and looking back fire quently with anxions solicitede, they reached Waupun just fifteen minutes ahead of the cars.— Respectfully submitted,
BYRON KILBOURN.

The following resolutions were thereupon adopted by the Common Council:

Resolved, That the direction of the Piers, and plan of the work at the Harbor Straight Out here to fore adopted by the City, he so modified as to conform to the position and plan adopted by the Government agents, so far as a modification of the said plan shall on mature consideration be ideemed advisable, and that the execution of the work contrasted for under the City authority be placed under the superintendance of the Government Engineers in charge of said work, without any charge against the City therefor, but that the disbursements of the City funds be made by the proper City Officers, on estimates to be furnished by the Government Engineers or Superintendance to extend to the manner of doing the work, but not to the time of its execution, that being reserved to the City will convey to the Government the site of the Straight Out, subject to the rights of the City and be as the City Authorities.

Resplectfully submitted, Waupun just fifteen minutes ahead of the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause of the dolay, they were took that the cause, and the cause of the dolay, they were took that the cause of the dolay, they were took that the cars were loaded with asaa along the way, and the way in

AN ACT supplementary to "an act to provide for the ruots speedy collection and payment of flues, forfeitures, and penalties remaining in the hands of justices of the peace," approved February 21, 1850.

The people of the State of Wisconsin represented Section 1. For the purpose of carrying out the provisions of this act, the Governor shall appoint so many agents as he may deem necessary, who shall hold their offices for the term of two years, respectively, unless sooner removed by the Governor; and he shall prescribe and from time to emor; and he shall prescribe and from time to time may alter and fix the limits of the district within which such agents shall respectively not. Sec. 2. It shall be the duty of each such agent, so often as he may have resson to believe it ne-cessary, to callfor, demand and receive, and when necessary to sue for and collect all moneys here tofore paid to, or received by any county or town streets are to see for an a collect all moneys heretofore paid to, or received by any county or town
officer, or other person, on account of any fine,
penalty or forfeiture, the proceeds of which belong
to the school fund, or state treasury, and which
have not been paid over by such officer or person
as required by law, and all moneys which shall
be hereafter paid to or received by any such officer or person, and which shall not be paid over
within the time required by law. The production by such agent of his appointment, or of a
copy thereof, certified by the secretary of state
under the seal of the state, shall be prima facie
evidence of his authority to make such demand.
Sec. 3. Any officer or person who has heretofore received, or shall hereafter receive, any moneys specified in section two of this act, and who
has failed or shall fall, as the case may be, to pay
over the same as required by law, and who shall
fail to pay over the seme to any such agent, lawfully demanding the same, shall be deemed to be
guilty of an embezzlement thereof, within the
meaning of section twenty-six, of chapter one
hundred and thirty-four, of the rerised statutes;
and it shall be the duty of such agent, forthwith,
to cause prosecution therefore to be commenced 

and contemplated a ...

the next succeeding year. See page ...

3, of the President's Mersage and accompanying document; session of 1853—54.

Having learned that the City Council has anihority to raise the sum of \$50,000 in behalf of this work, I would respectfully suggest as follows, viz:

1. That the work be constructed in accordance with the plan of the Board of U. S. Engineers above referred to,

2. That the government appropriation now available, be first expended upon it under the direction of the U. S. Superintending Engineer, and sill other expenses, thirty per cent. of the moneya collected by him, and shall pay the ballance into the state treasury on the first day of January. April, July and October in each year and shall at the same time file with the treasure a detailed streament, rerified by affidavit, show a detailed streament, rerified by affidavit, show the file. danuary. Apin, only and all danuary. Apin, only and shall at the same time file with the treasurer a detailed statement, verified by affidavit, showing all the same so collected by him, the officer or person from whom received, the time of receiving the same, and the person from whom the fine penalty or forfeiture was recovered.

Sec. 5. Every such agent shall have full power and authorty to inspect and examine all records or papers of any court or officer concerning the proceedings in any suit instituted for the recovery of any fine, penalty, or forfeiture, or showing the disposition which has been made of any moneys received therefor.

lisposition which has been made of any moneys eccived therefor.

Sec. 6. This act shall take effect from and after

ts passage and publication.
Approved April 3, 1854.
WM. A. BARSTOW. STATE OF WISCONSIN, } ss

SECRETARY'S OFFICE, \ SS
I, ALEXANDER T. GRAY, Secretary of State of the State of Wisconsin, do hereby certify that the foregoing act has been compared with the original corolled act in this office, and that it the original curolled act in this office, and that is appears to be a true copy thereof, and of the whole of such original. In witness whereof, I have hereupte

in witness whereon, I have nerember set my hand, and affixed the great seal of the State at the Capitol in Madison, this fifth day of May, A. D.

ALEXANDER T. GRAY. THE NEW PROPELLER. - The Buffalo Commer ial Advertiser of the 5th has the following:

"The Propeller Bultic, with Capt. Whittaker's

"The Propeller Baltic, with Oapt, Whittaker's new side screws, went out on a trial trip a few miles up the lake yesterday afternoon. As it was impossible to get sufficient steam up in consequence of some temporary difficulty with the boilers, the trial was not considered any test of the speed which can be accomplished with the new principle, but sufficient was done to satisfy every person of the entire success of the opening of a new era in the navigation of the lakes by propellers. The persons interested are perfectly satisfied with their progress, and confident in the schievment of a great triumph. We shall have more to say of the matter on a future occasion."

#### THE WAR. The second edition of the Morning Post conains the following despatsh :

Constantinople, April 10th. Constantinople, April 10th.

The Visnan Press gives some particulars of a sharp battle which took place on the 4th April, at Giditsch, near Kalafat, and which ended in the defeat of the Russians. Achmet Facha, the commander of Kalafat, marched out upon them with a strong force, and attacked them in their position at Giditsch. The struggle was long and bloody, but was at length decided in favor of the Ottomans, by a brilliant charge of the Turkish cavalry, under Iskander Bey, (Count Kinsky,) at 4 F. M., on which after great exertion, the Russians were driven from the place with immense loss. The captors at once occupied the village in force, and have since thrown into it a strong garrison from Widdin.

The Whear.—The winter wheat in this county looks remarkably well, and the apring grain also is coming forward with remarkable vigor. We hear the same good news from all patits of the State. From present appearances there will be a good crop in Wisconsin this season, and prices will unquestionably be high. This is cheering. It will enable our farmers to pay their debts, improve their farms, and reach a desirable state of independence. But while our country here is smiling in the robes of spring, we hear of terrible stows, and a backward season at the East. Why don't they come west where the land is good, the seasons pleasant and the country healthy?—Janes-ville Free Press.

A Wire's RESCRE:—"Is a man and his wife one?" saked the wife of a man in a state of stupi-fication, as she was holding his aching head in both hands.
"Yes, I suppose so," was the reply.
"Well, then," said she, "I came home very drunk last night; and I ought to be ashauned of myself.

Daring Robbert.—The warehouse of John Backett. Esq of Beloit, Wis, was broken open last Sunday evening, by a company of burglars, who took out a heavy iron safe, carried it about forty rods, blew the door open with powder, and made off with the contents. Fortunately there was only about \$500 in it at the time, though the cobbors republishers. robbers probably expected to find a much larger

STRUCK BY LIGHTNING.—The brig Globe was struck by lightning in the storm of Monday night, while lying at this port. Her fore-topmast, gallant mast, and royal mast, cross-trees and and trussci-trees were carried away, and her topsail yard was slightly injured. The fluid ran down her topsail sheets, and split up one of her partners and shivered the starboard rail. New spars are being got out, and all damage will be speedily repaired.—Chicago Tribune.

MARRIED. At the residence of Mrs. R. A. Trippe, Whitewater, of the Sih inst, by Rev. S. R. Humphrey, Rector of St. Luke' Church, Hon ELEAZER WAKELY, of the State Senat

Webber for violating the city bridge ordinance. Conlection and Exchange Office at Mon-

Mr. JOHN A. BINGHAM, Attorney and Counseller at Law and County Judge, has opened a General Land Agency, Exchange, and Collection Office at Monroe, Green Co., Wisconsin We can commend Mr. Bingman to any of our readere who may have need of his services, as a may of good character and business habits.

NEW CARRIAGES -- By the Prop. Milwaukee, GEO. F. CAELEY received two new and elegant carriages, built at Troy, N. Y., and cesting \$800

The schooner, Garden Uity, in going thro' Spring St. Bridge draw yesterday, on her way up the river to load at the Mills, tore off 15 or feet of the railing at the west end. For all damage so done to the city bridges, a full equivsicut should be promply collected from the vessels doing it. There is no other way to teach masters the duty of passing the draws carefully.

of the 1st Ward have endeavored to get the work of fluishing out Mason et. to the lake contracted, but are unable to do it because labor, for cash, is so much in demand, that it cannot be had for stree! Commissioners certificates.

As for East Water street, from Wisconsin st nerth, the stone are being prepared for paving itand the work will be pushed forward. Will the 3d ward Alderman do anything-or will they wait until it is too late in the season to begin this much needed work?

The steamer Traveller, Captain Cooper, arrived from Chicago vesterday afternoon with 147 passengers and 25 tons of freight.

Arlean Agam .- The schooner Twin Brothers was yesterday got off the beach below the mouth of the river, by the Tug boat Tift. The contwet had been let to get her off and she was on ways, which broke and let her down; a few tugs with the tag, jerked her into the deep water, and she was towed into the river, where she will be

The Board of Supervisors commenced their sitting yesterday morning at the Court House, and after choosing their chairman, and atgointing committees, adjourned to this morning for the transaction of business.

Good SALE-CALES WALL sold yesterday the N: W. 12 of Sec: 31, Town 6, Range 22, 160 acres, for \$4000. It is six miles from the city.

Another Speck of War-Three Steamers Sunk.

The inhabitants of village on Lake Champlain are now engaged in a quartel about milroad and steambest matters, which is not likely soon to end. It has already resulted in violence and ourage upon persons and property. It appears that the Piattsburg people are building a railroad from that place to Montreal, a portion of which was completed. The company owning the railroad from House's Point to Montreal, purchased the Mentreal cod of the Plattsburg rout and left tha people of the latter place in a bad fix. The Plattsburg people owned a steamboat called the Saltus, which they designed to run in connection with which they designed to run in connection with their road this scason. The boat wintered at Shericure Bay, and when the proprietors were about to move her, they found that a part of her machinery had been stolen. They attempted to tow her down to Plattsburg, but the people of Burlington cut the lines and took her back. The following night two old steamers, the Barlington and Whitaball, were drawn beside the Saltus and sunk in such a position that the latter cannot be moved. The Plattsburg people were much exaperated. The captain and owners of the steamer Samnac were supposed to be concerned in the outroge, and when that boat came to their village, 500 persons rushed on board armed, hashed the wheels, and threatened to sink her, arrested her captain and pelted him and others with rotten aggs.—So the matter stood at last accounts. We sheir road this season. The host wintered at Sher compile the above statement from the Ogdens

temy Despaich.

VERY NATURAL,—The Pick & Gad of Shullsburgh, the editor of which, Dr. Bugh, was Clerk of the Serate, and has received a lucrative appointment by the Governor, discourses quite eloquently upon the industry and particism of our face Legislature. It says that "its session will stand in the history of the State as unimpeachathe,—the most hermonious and efficient within our knowledge. The Administrative and Executive departments have conducted themselves faithfully and to the satisfaction of their constituents and of community."

willy and to the satisfaction of their constituents and of community."

Of course the trifling circumstance of being Clerk for three months past, and a desirable prospect for the future, can have no influence upon the mind of the editor, or reveal any beauties to him that the common people cannot see. It is fortunate, however, that the Pick & Gad has told in these sterling and shining qualities of our Legislature or we might never have heard of them.—

Manne Section!. (den.)

High Prings for Wheat.—It is merry times for the fermers these days. Wheat is up to an unprecedented figure. White winter is ranging from \$1.15 to \$1.18 here; Canada club from \$1. 12) \$1.15; and common spring from \$1,10 \$1,10 \$1,12 \$2. At these rates, and with their abundant crops. Wisconsin farmers need not complain of bard times.— Madison Journal, Monday.

THE WEATHER—The editor of the New Haven Register, is the only one who has, as yet, attempted an explanation of this unseasonable weather. He thinks it can only be accounted for on the supposition that the persons in search of Sir John Franklin have gone through the north-west passage, and neglected to shut the door after them. That looks reasonable, and the editor may go up bead until the next pretty day.

THE CALORIC SHIP.

New York, May 2d, 1854. H. Fuller, Esq. Sir:—The serious accident to the "Caloric Six:—The serious accident to the "Caloric Ship." hast Thursday, has deprived me of the amicipated pleasure of inviting you to witness the performance of the new machinery of this ship. Previous to the untoward occurrence, Mr. Kitching and cheerfully accorded to my proposition of making a formal trip this week, to afford the New York Transaction of missing a formal trip this week, to afford the New York Transaction of missing a formal trip this week, to afford the New York Transaction of missing a fine serious the making a formal trip this week, is afford the New York Press an opportunity of witnessing the practical operation of the new machinery, and of hearing my explanation of the important changes which have been made in regard to that motive power, which a year ago, was heralded to the world by the dissinguished Press of New York, in a manner altogether unprecedented in the history of mech anical progress.

As soon as the ship and machinery are again in serviceable coordition, I shall not lose a moment in perferming the agreeable task of rendering the proposed account of the invention. In the meaning of the proposed account of the invention.

in performing the agreeable task of rendering the proposed account of the invention. In the mean-time, I have to state, that when the noble ship want down, the motive had proved completely accounted. The engines had not been put to anything like maximum work, and yet—we attained a speed of more than elevin miles in an hour, with a consumption of fuel which promises to reader Ocean Novigation in point of economy, what it has already proved in point of elerity.

I am very respectfully your obd't servant.

N. Y. Mirror.

EALE OF REAL ESTATE.—The brick block so well known as Head's block, and the vacant lot between it and the river, has been sold during the past weak for 23000. This property, considering its location in the very heat of the city, and the sale of other property this apring in its immediate recipity, has been sold at much less than its real value. Our informant says this block is already needed at about 15 per cent on the above cost, to Gen. McManman for a wholesale grocery store. James Chappell, Eq., is the lucky purchaser.—

CITY LAND OFFICE. CITY LAND OFFICE.

TWENTY FIVE THOUSAND DOLLARN WORTH of the most valuable property
is the city of Milwaukee, will be sold at public auction on
the 18th day of May, at 10 clock.

The aforesaid property is forty feet on East Water St.—
On it is two entirely new three story Brick Stores, finished
in the very best brild made in this city, and Lockport
stone. The property now pays, under an old lease, sixteen
hundred dollars rent, which expires May 18S3. It could
now be leased to pay 82,500. The ground on which the
building stands, is worth, according to the vilue of property on East Water street, \$350 per foot, and the brilding
coux \$10,000, but could not now be built for \$13,000. The
owner of said property is desirous of giving up his businers to make arrangements for extensive manufacturing ogartifona, is the reason why said property is derived at public sale. Terms of payment, Cash. Calers Walle.

C. H. ESL.
H. COLETENAY,
E. L. BUTTON. Detroit, May 10th. Steamers Northerner arrived here this morning from the Sault Ste. Marie—first arrival this sea-Cleveland, May 18th.

Two men killed and one badly hurt by explosion in steam Saw Mill at Paineville. Mill de-Milwaukee, Mar 8, 1854. Brantford, May 9 Arrival of the "Lead Express."

Brantford, May 9.

A public meeting has been called by the citizeue of Brantford to take steps to raiso, funds to rebuild the depot and machine shop. There is no doubt from the manner in which the fire commenced that it is the work of an incendiary.—Insurance on building \$32,000. A portion of the building were occupied by Messre. Williams & Butler, car manufacturers. Part of the loss falls on them.

Kenosha, May 9, 7 P. M.

A fire occurred here this P. M. which destroyed serven or eight wooden buildings on Herald and Exchange streets. Loss is perhaps not over \$5900. and falls principally upon Messis. Croset, Ches-holm and Ystes. No insurance.

New York, May 9.

A fire broke out in Porsyth street to-day which destroyed 20 buildings on that and Christic street. About fifty families were burnt out Loss from \$50,000 to \$100,000.

Massirgton, May 9.

In the Senate several memorials were presented includeing fome presented against the Nebrashr bill.

A bill was passed paying to David Lyerlethree thousand dollars for losses under contract to supplying hemp to the government.

Indian appropriation bill wastaken up and debated.

bated.
The House went into committee on the Nebras-ka bill, when Mr. Ingersoll made a speech on the Enropean war, advocating immediate declaration by Congress of the principal that the United States would not permit the searching of American ships or the overhauling of their papers.

NEWS BY THE AFRICA.

Russian Invasion of Servia. THE COSSACES CROSSING THE DANGEE. THE COSSACES CROSSING THE DANGER.
From Orsova 10th, it is stated that on the 14th a Russian force violated the Servian territory and occupied Turnu-Severin. On the 15th the Ocsacks crossed the Danube at New Orsova, a Turkish fortress on one of the Danubian islands, and occupied Wartsierova. The Turks were bombarding the place. According to the accounts received it is not clear whether a regular passage of the river is intended at that spot by the Russians.

Movements on the Danube. A letter from Varna, dated March 31st, gives the following clear and concise account of the recent proceedings of the armies: "The Russians, after waiting a few days at Galatz, advanced on Matschin with 26,000 men, including a large force of artillery, but with few cavalry. The Turks had only two battalions at Matschin, and retired before the enemy towards Silistra, where they are in force. The Russians have also thrown a considerable force over the Danubs at Hirsova. An officer just arrived from Silistria, states that an action had been fought there, but the truth of an action had been fought there, but the truth of this is doubtful. All the Turkish troops in the Dabrudscha, to the number of several thousands, have been concentrated upon Karasu, with the

On and after this date we shall run a New Concord Cosch regularly to the Boats and Cars for the convenience of the Public Passengers and ordinary Baggage will be called for or taken to any part of the City for 25 cents each. For the accommodation of persons living up town, orders may be left at Hunn's Grocery, corner East Wate and Mason Streets, or at our Office on Huron Street, which will be promptly attended to.

Streets, or at our Office on Huron Street, which will be promptly attended to.

J. CROUCH, Undertaker,

WOULD RESPECTFULLY INFORM THE COUNTY WARK ROOMS to the 185 tore on Epring Street, opposite the American Hones, where he is ready to attend to all

the Dobrudscha, and has applied to the Porte-for further assistance."

From Shumla, April 2d, letters state that the Russian force on the Turkish side of the Danube was about 50,000 men. They had already advanced to Eabadagh, and held all the country of the Dudrudscha as far as the Karneu, whence a mur dovillon and an old Roman wall extend to Kostendje, or the Black Sea. Omar Pacha is perfectly aware of his great deficiency in cavalry, and the disadrantages of risking an engagement on the open plains of Bulgaria. He was therefore concentrating as many troops as possible, principally infantry, in the neighborhood of Shumla,—There were at the above date (April 2d,) upwards of 20,000 men at Shumla and more were hardy arriving from the reserve at Advancple, and some of the ports on the Danube. Iswael Pash, the hero of Citale had arrived from Tortukal, and it was expected that 50,000 men would be assembled at Shumla by the 10th April.

Important from St. Petersburg !

WHAT THE CZAR THINES OF THE ENGLISH AND FRENCH DECLARATION OF WAR. FRENCH DECLARATION OF WAR.

(From the St. Petersburgh Journal, April [a.]

"France and Great Britain have now at last undisguisedly departed from the system of concealed hostility which they had previously adopted against Russin, particularly by ordering their fleets to enter the Black Ses.

The tenor of the explanations given by those Powers in reference to that proceeding was such that the cessation of the mutual relations existing between them and the Imperial Cabinet became a matter of course.

still more personpority, at the 19th of that month.

"By what right did the two Powers thus pretend to exact everything from one of the two belligerent parties, without demanding anything from the other? This is what they have not shought fit to explain to the Imperial Cabinet—To exacuate the Principali ies, without even the shadow of a fulfilment by the Ottoman Government of the conditions to which the Emperor made the cessation of that temporary coupation subordinate—to evacuate them from the fear of a war which the latter was the first to declare, while it is actively carrying on offensive operations, when its own troops occupy a fortified point of fusein territory—was in itself a condition inadmissible in substance. The two Powers placed the condition in such a chape that it became still more unacceptable. They fixed a term placed the committee in such a super that it or came still more unacceptable. They fixed a term of six-days for the adhesion of the Imperial Cab-inet, it the expiration of which a reusal, or the absence of any reply whatever, was to be by them regarded as equivalent to a declaration of

var. "To a summons so partial in its tener, as practically inexcusable as it was insulting in its terms, silence was the only reply compatible with the dignity of the Emperor.

"The consequence, however, is, that the two Governments have just publicly made it known that Russin; by her refusal to accede to her demand, has constituted herself towards them in a state of war, the entire responsibility of which a state of war, the entire responsionary of which will rest upon her.

"In the presence of such declarations, it only remains for the Emperor to accept the position which has been assigned to him, reserving to himself to employ all the means which Providence has placed in his hands to defend with energy and equatancy the honor, the independence, and the security of his empire.

self to employ all the means which Providence has placed in his hands to defend with energy and constancy the honor, the independence, and the security of his empire.

The Bliss of Marriage?

The way to the Altar—Matrimony Made
EASY: Or, How we wan Aloyze.

"Love releasing court, the enough the grove,
for love is heaven, and fleaven is love."
So sang the bard; yet thousands pine
for love. If the fight divine—
Who did they know voore gentic charm,
The heaves of those they love to warm,
Mighalive, might die in bliss supreme,
Passessing all of which they dram.
Therefore to rolly one work you know,
Debriag of the they dram,
Then dies and from his gloomy wings
A diadow fall on living things!
Then second to modern as they pass,
Iro all the last ands through the glass;
At least the present is your over,
While the throne is unknown.
A happy marriago man or mad

is signal are the evaluaters and a will proceed the greatest colored the Mr. H. H.—This is no humbing, but one of the greatest concess the world ever produced, which thousands of kains and gentlemen in the City of New York can attest to. No one will sever regret the price paid for such an intraheable scoret, which is contained in a book of 100 pages. All foctors properly scaled and plainly directed may be sent observed the Frofessor's risk.

BUFFALO EAGLEIRON WORKS CO. Propose to pay Particular attention to Architectural Iron Work. W E are prepared to Manufacture IRON FRONTS for Stores and Public Buildings, with the

House, Sign, Ornamental, and Entraffich of wood & MARBLE Patent Fire Proof Bolling Shutters. PRIENT FITE FROM KOLLING MULLERS.

These Shutters are the same that are now as o generally used in New York, and may be put in any Window, Small or Large, and if arranged before receiven or theming, may be used without in the least affecting the strief of the chiecture. They make the only perfect fire Proof Shutters, and do not appear to the eye when rolled up.

When desired we will formish the Plan for Stare Fronts, (with or without the Patent Shutters,) with estimate for the Cost of the work finished ready for delivery. To our Western friends we think this arrangement will be desirable, for they thus are enabled to know without experiment what the Front is to be, and what it is to cost.

When the Fatent Shutters are used we will furnish a man to superintend the excetion of the Iron Front and the setting of the Shutter. CHAPTER TO THE AND THE AND THE CONTROL OF THE CONTR

Milwaukee, Oct. 1853.

FireKing Safe, again Triumphant.

\$1,000 will be paid, if reliable evidence is shown for the where they ever failed to protect valuable rom fire, where as other makers' Safes have proved worthers in various accidental and experimental tests, some of which occurred recently.

Real the following from Mestrs. A. McClure & Co., wholesale and axtensive dealers in Drugs, Mcclinies, &c. until Mr. Pobliman subsequently entered at the peril of his life and closed the doors.

After forcing the safe open after all this exposure and fire, which make us a careful for the safety of its contents, its valuables were found unitylured.

We have so much confidence in the security of the Fire King, that we shall have it immediately replaced.

Amay, Dec. 19, 1852.

This is to certify, that on the 7th day of May, 1851, 5 purchased of J. McE. Davidson, No. 7, single flange Safe, and that the same was subjected to a screen test on the 18th of Deccuber, 1851. After the fire was extinguished, its contents (tools and papers,) were cannined, and found to be perfectly preserved—not alread of the No. 18 and papers, 1851.

Schiedam Aromatic Schnapps.

Schiedam Aromatic Schnapps.

THE ABOVE NAMED PREPARATION has become extensively known throughout he length and breadth of the United States and is universally admitted to be the most delightful, healthful, invigorating, and pure preparation of the United Berry, that science and a long practice in the distillation and preparation of pure liquors have every expected in producing.

A long established manufacturer and importer of fiquors of every description, the undersigned devoted himself to the production of an article of pure gin, which should provo a valuable agent in these, every find the production of an article of pure gin, which should provo a valuable agent in the sec of the manifold disease and the second of the production of an article of pure gin, which is been proveried by the medical faculty, for years, at length the efforts, were crowned with success, at the extensive distillery in Schiedam, Holland, from which piace the purety rin has long been imported, and he was enabled to give to the world his Schinapps, which, for purity and enfaire frecion from the perincious fixed for an advantage of the most one for a fixed frecion from the perincious fixed for an advantage of the hands of chears, impostors, and plantas, who would unquestionably attempt to prim off a vice and spurious article upon the unsuspecting commanity, and, like the worl in plant and quart bottles.

They be bettles are of giasa, stamped with the name of the

Determined that the victures of the Schrappe should be becoughly substantiated by the most underliable and uspressionable testimorials, circulars were disputched to a very regular membershe models faculty, and professionate of the best with the control of the schrapped of the schrapped of a bottle of the Schrapped of the provision acceptance of a bottle of the Schrapped of the city and town, has spoken boldly in its favor in its editorial columns.

The New York Medical Cazette and Journal of Health, high authority, has repeatedly proclaimed its excellency. In the July number of that journal, Dr. Resse, its accomplished editor, has publicly initied a discussion upon the subject of the use of alcoholic mixtures, medicinally, in his widely circulating columns, and the views of the medical faculty in references to my Schnapps in particular, giving an assurance that they should be spread before the public. Physicians, therefore, who have not already complising with my request to forward me their opinion as to its qualities, will abilge me by doing so through the editor of the Medical Gazette.

-that vice which desolates the social hearth, entails misery upon cerruleas thousands, fills our hospitals, almahouses, and prisons, and even furnishes the gallows with
its deady fruit.

In countries where pure whee and liquors can be had
readly, and for a mere trifle, they are freely used by all
classes, and drunkenness is hardly known—that vice to
which the complet of the immortal pace we aptly applies:

"An minister of such hideous micen,

"An minister of the distilled or fermented liquore,

ont temperance societies would have less arduous habor to

perform, and Honese Unell, of the sacend the rostrum,

PATENT MEDICINES. | PATENT MEDICINES. Mexican Mustang Liniment.

Mexican Mustang Liniment.

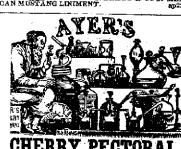

Duransville, N. Y., December 12, 1851.

Messra. Brado & Co.:

Gents:—Although a strauger to you, I can not to your nost valuable mediche called Mexican Mustang Liniment. One year 190, I became afflicted with an enlargement of my kinee joint; also a weakness which disabled me almost from using my limbs at all. I called on' a physician in Syracuse—(the name courd be given)—he examined it and told me to bathe it with warm water, and rub it two or tiree limes a day, and it might; go off without much trouble; if not, to call again. Some weeks passed, and it grew no better. I then called on another doctor at Oneida Depot; he told me nothing weald help it but blistering and lancing. I could not consent to this, and calloo no Drs. C. & T.; they gave me a mixture of indigo, calomal, i.e. I tried this and it did no good. I then used five or six dollars worth of a liniment that had been recompanded to me. All of those medicines I have been using

CURE OF SALT RHEUM OF TEN YEARS STANDING. OF TEN YEARS STANDING.

A lady residing near Lynn, Oarge Co., Mo., had the Sale Rheum on her head during the last 10 years, causing pain and forment. Six weeks ago it zesumed a very dangerous distractor, spreading all over her head and face in the most distractor, spreading all over her head and face in the most frightful manner, so much so that her life was despaired of. She tried every remedy her ductor could prescribe but all to no effect. One of her neighbors recommended the Musing Liminent as the last resort. Accordingly a bottle was procurred and used as directed; the result was an immediate relief, and an entire care in four weeks after commenting the use of the Liminent. Here are her own words to use a few days since:

"I never expected to see so many pleasant and happy days as I have since I used your renowned Musing Liminent. If the prayers of an afflicted woman can benefit year, then I readly bestow mine. I used about four bottles of your Libiment and an now as well as I could wish for?"

COUCHS, COLDS, HOARSENESS. BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in his generation to facilitate the business of life—increas to enjuyment, and even prolong the term of human exis-ince, none can be named of more real value to mankind than this contribution of Chemistry to the Healing Art. A wast trial of its virtues throughout this broad country, ha of modelines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to be-lieve a Romedy has at length been found which can be re-led on, to cure the most dangerous affections of the langs. Our space here will not permit us to publish any proportion of the cures affected by its use, but we would presen the following:—and refer further enquiry to my American Almance, which the agent below named, will always be pleased to furnish free, wherein are full particulars, and pleased to furnish free, wherein are full particulars, and misputable proof of those statements.

Office of Transportation, Laurens R. R., S. S. Aug. 4, 1858.

J. C. Aven. Pear Sir,—My little son, four years od, has user entered from a severe attack of malignant Search Fever, his threat was rotten, and every person that visited bing promoneed him a feed oblid. Having used your Grammy Protona. In California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave blue a tea-spoonful every furce hours, commencing in the morning, and by ten o'clock at night, I found a decided change for the better, and after three days use, he was able to cat or drink rithout pain.

Its use in the above nomed disease will save many a child.

without pair. There any use, he was able to cate driving without pair. Its use in the above assured disease will save many achid from a premature grave, and relieve the society of many a found parent. For all affections of the Throat and Lungs is found parent. For all affections of the Throat and Lungs is folieve it the best meritime extant. A feeling of the keepes gratinode prompts one in addressing you these mess—but for your important discovery, my little boy would now have been in another world.

J. D. POWELL, Supt. Trans., L.R. R. J. D. PÓWELL, Supt. Trans., L.R. R. Rock Hill, (Somerset Go.,) N. J., July 21, 1852.

Dr. J. C. Aven,—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my, customers the worth of their money, and I feel gratified in socing the benefit confers.

Window, C. W., June 26, 1852.

J. C. Aven, Sir: This may certify that I have essel your berry Rectoral for upwards of one year, and it is my singer belief that I should have been in my grave ero this inen if I is do not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convintions when I tell you it is a priceless remedy.

Yours very respectfully,

D. A. McCULLEN, Attorney at Law.

Bulledsarie Pa., Sont. 28, 1856.

Wilksbarre; Pa., Sept. ze, 1000.

Dr. J. C. Ayzn. My doer Sir., Tour melloine is much approved of by these who have used R here, and its composition is such as to insure and maintain its reputation.

I therefore recommend it for puthonary affections, as demany of our principal physicians.

I am your friend,

A Dark Day is before us!

A Dark Day is before us!

The Rek will be an extraordinary, Eclipse of the Suz on I. the 26th day of this present May, 1954, such as none but the Older limbalization this country have witnessed. It will be very much similar to the Great Eclipse of 1896,—(which I cannote sately recollect)—but allthe cowseame home and the chickens went to roos—so Grand Ma said. But wish has the Eclipse to do with Real Eclipse? What is more bright and beautiful than Milwauke? Let none allow thomselves to alumber; but arouse yourselves and Seener Homes or your Fundies before it is TOO LATE! For Projecty in Milwaukes will be worth Toubie its present yrice as soon as all our Hailrean's are completed, and that thagolisecut thost (which will be soon unifer way) is built. What made Chicago what als note is, and what has increased her Property? The Railrean's and whose way is but that thagolisecut thost (which will be soon unifer way) is built. What made Chicago what als note is, and what has increased her Property? The Railrean's and whose way is but the state of the Property? The Railrean's and those will be Milwaines receive here Reward. We are bound to have Old Hundrel Thousand Inhabitants before Tan Years roll around. Nothing can prevent k. Where is insure bour that Office to be fined, surrounded by a consist density opposited by a cognitic and thorough Ferniers, from all propositions, ore—Mail will side of the Milwain pass with \$3. So now take addice and Bornar, Company with connection to the Schole will be consult themselved for the Great Real, state Sale, which comes off June 6th. I would also say to those who want to avait themselved of the bord of the firs Rele to seed in their list of Los before the 16th Ray. I want to have the Carlangus ready by the 26th.
